

Visor Cleaner

Introduction

Technical sprays are used in nearly all sectors of modern industry. These sprays are used for care and protection of surfaces, for cleaning, degreasing, dissolving and separating and are essential in daily business.

WEICON Visor Cleaner is the ideal product for the cleaning and care of sensitive plastic and glass surfaces, e. g. visors, safety goggles, welding face shields, protection caps, safety glass etc. Impurities caused by insects, dirt, dust, grease or nicotine are carefully removed without leaving residues. Visor Cleaner is antistatic

and anti-reflective, reduces dazzling and improves the sight.

Applications

- Visors of all kind
- Welding face shields and goggles
- Eye-protection and safety glasses
- Plastic housings on CNC machines, printers, scanners, etc.
- All other plastic and glass surfaces

Technical data

Colour	white
Odour	almost odourless
Temperature resistance	--- °C
Shelf life (minimum)	24 months
Special features	Cleaning without residues and neutral to surfaces

Processing

Shake can before use. Spray Visor Cleaner onto the surface, let it work for approx. 20 seconds, then wipe it off. On sensitive surfaces or electrical appliances, spray Visor Cleaner onto a soft, lint-free cloth and clean the surface with light pressure. Repeat process if necessary. Make sure that the material does not penetrate into the inner parts of electrical appliances. Only for cleaning switched-off and cooled-off appliances (pull out mains plug).

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They

are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
